Wells Fargo Target 2035 Fund - Class R6

Release Date

Category
Target-Date 2035

Investment Objective & Strategy

From the investment's prospectus

The investment seeks total return over time, consistent with its strategic target asset allocation.

The fund is a fund of funds that invests in various master portfolios ("underlying funds"), which in turn, invest in a combination of securities to gain exposure to equity and fixed income asset classes. It gradually reduces its potential market risk exposures over time by generally re-allocating its assets among these asset classes, consistent with increasingly conservative strategic target allocations. The fund is primarily designed for investors expecting to retire and/or begin gradually withdrawing funds around its target date of 2035.

Past name(s) : Wells Fargo Dow Jones Target 2035 R6.
