

Conservative Custom LifeStyle Portfolio

Lifestyle Portfolios are multi-asset type investment options that are intended to be managed in accordance with a plan participant's retirement time horizon, long-term return expectations and overall tolerance for risk of principal loss. Since the asset allocation decision is the most important factor in determining investment returns over time, these types of funds provide three "packaged," diversified investment choices for those seeking assistance in making the asset allocation decision. Lifestyle Portfolios are constructed to provide different long-term investment return and risk characteristics that are determined by their underlying sub-funds. The sub-funds are passively and actively managed U.S. Stock, International Stock, and U.S. Bond Funds that are also available as "stand-alone" investment funds.

Important Information

Category is interpreted by Voya® using Fund Company and/or Morningstar category information.

Investment advisory fee reflects a weighted blend of fees charged by the underlying investment options within the Lifestyle Portfolio, based upon the percentage allocations designated by San José and detailed within the Strategy section.

This Portfolio is not a registered investment company, and interests in the Portfolio have not been registered with the Securities and Exchange Commission. It is only available to participants in the San José qualified retirement program. Only eligible participants in the plan may invest in the Portfolio.

You can obtain copies of free prospectuses for the underlying funds which contain additional information on the charges and expenses for the funds at any time by calling your local Voya representative. Other fees and expenses may be charged under your retirement program. More information is included in the enrollment material.

Each sub-fund description must accompany this Lifestyle Portfolio description.

Investment Objective

The investment objective of the Conservative Custom Lifestyle Portfolio is to provide total returns with an emphasis on income and lower volatility of principal. Thirty percent (30%) of the total fund assets are allocated to equities and seventy percent (70%) are allocated to fixed income securities. It is the most conservative of the three Lifestyle Funds in terms of its potential for investment return, but also has the lowest risk of the Lifestyle Funds. It is most suitable for participants who are close to retirement, need access to their money within five years, or are not comfortable with the higher short-term fluctuations that are characteristic of investing a large portion of their portfolio in equity markets.

Strategy

The strategy for the Conservative Custom Lifestyle Portfolio is to invest in a combination of sub-funds in the following proportions:

---50% in the San Jose Stable Value Option which is invested in a Separate Account Group Annuity contract issued by Voya Retirement Insurance and Annuity Company.

---20% in the Loomis Sayles Core Plus Bond Fund – Class N which seeks high total investment return through a combination of current income and capital appreciation.

---5% in the AMG Yacktman Fund - Class I which seeks long-term appreciation and, to a lesser extent, current income.

---10% in the Vanguard® Institutional Index Fund – Institutional Shares which seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.

---5% in American Funds The Growth Fund of America® - Class R-5 which seeks to provide growth of capital by investing primarily in common stocks.

---5% in the Vanguard® Small-Cap Index Fund - Institutional Shares which seeks to track the performance of a benchmark index that measures the investment return of small capitalization stocks.

---5% in the American Funds EuroPacific Growth Fund® - Class R-5 which seeks to provide long-term growth of capital. Normally, the Fund will invest at least 80 percent of its assets in securities of issuers located in Europe and the Pacific Basin. The Fund also may hold cash,

money market instruments and fixed income securities.

Each sub-fund description contains more detailed information regarding the sub-funds' Investment Advisers, Portfolio Managers, Investment Objectives, Strategies and Principal Risks, and must accompany this Lifestyle Portfolio description.

Principal Risks

All equity (both U.S. and International) and fixed income investments exhibit certain risk characteristics that include the potential for loss of principal value. Generally, the probability of loss of principal is greater with investment funds that also provide the greatest potential for investment return. International stocks carry additional risks that relate to currency and political uncertainty. The risks of Lifestyle Portfolios are based on the proportionate risk characteristics of the underlying sub-funds described above.

Vanguard® Institutional Index Fund - Institutional Shares

Category

Large Blend

Investment Objective & Strategy

From the investment's prospectus

The investment seeks to track the performance of the S&P 500 Index that measures the investment return of large-capitalization stocks.

The fund employs an indexing investment approach designed to track the performance of the S&P 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

American Funds® The Growth Fund of America® - Class R-5**Category**
Large Growth**Investment Objective & Strategy****From the investment's prospectus**

The investment seeks growth of capital.

The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest up to 25% of its assets in securities of issuers domiciled outside the United States. The investment adviser uses a system of multiple portfolio managers in managing the fund's assets. Under this approach, the portfolio of the fund is divided into segments managed by individual managers.

American Funds® EuroPacific Growth Fund® - Class R-6**Category**
Foreign Large Growth**Investment Objective & Strategy****From the investment's prospectus**

The investment seeks long-term growth of capital.

The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

AMG Yacktman Fund - Class I

Category
Large Value

Investment Objective & Strategy

From the investment's prospectus

The investment seeks long-term capital appreciation and, to a lesser extent, current income.

The fund invests primarily in domestic equity securities. It also may invest in foreign equity securities, including emerging market securities, and debt securities. The fund may invest up to 30% of its assets in foreign equity securities. Its investments in equity securities may include common stocks, preferred stocks, convertible preferred stocks and ADRs. It may invest up to 20% of its assets in such debt securities, including junk bonds, in any proportion provided that the total invested does not exceed the 20% threshold.

Past name(s) : AMG Yacktman Service.

Loomis Sayles Core Plus Bond Fund - Class N

Category

Intermediate Core-Plus Bond

Investment Objective & Strategy

From the investment's prospectus

The investment seeks high total investment return through a combination of current income and capital appreciation.

Under normal market conditions, the fund will invest at least 80% of its net assets (plus any borrowings made for investment purposes) in bonds, which include debt securities of any maturity. In addition, it will invest at least 65% of its net assets in investment grade securities. The fund will generally seek to maintain an effective duration of +/- 2 years relative to the Bloomberg Barclays U.S. Aggregate Bond Index.

Notes

Loomis, Sayles & Company, L.P. ("Loomis Sayles" or the "Adviser") and Natixis Advisors, L.P., the Fund's advisory administrator, have given a binding contractual undertaking to the Fund to limit the amount of the Fund's total annual fund operating expenses to 0.45% of the Fund's average daily net assets for Class N shares exclusive of acquired fund fees and expenses, brokerage expenses, interest expense, taxes, and organizational and extraordinary expenses, such as litigation and indemnification expenses. This undertaking is in effect through January 31, 2022 and may be terminated before then only with the consent of the Fund's Board of Trustees. The Adviser will be permitted to recover, on a class by class basis, management fees waived and/or expenses reimbursed to the extent that expenses in later periods fall below the applicable expense limitations for Class N shares. The Fund will not be obligated to repay any such waived/reimbursed fees and expenses more than one year after the end of the fiscal year in which the fees or expenses were waived/reimbursed.

What is the stable value option?

The stable value investment option of your defined contribution plan seeks to preserve participant account balances and to return steady growth over time without daily fluctuations.

What is Stabilizer?

It is an insurance company participating separate account group annuity contract provided by VRIAC. Subject to certain conditions, the contract generally guarantees the availability of participant account balances in the ordinary course of the plan's operation. The guarantees provided by the contract are based on the claims-paying ability of VRIAC and are supported by its full faith and credit. VRIAC is a leading provider of stable value products and services and a member of the Voya[®] family of companies. The separate account assets are managed by Voya Investment Management Co. LLC. The assets held in the separate account are "insulated" from claims arising out of any other business conducted by VRIAC and can be used only for the benefit of plan participants.

What does it invest in?

The separate account invests in a diversified portfolio of fixed income assets. This diversified separate account portfolio seeks to maintain a high overall credit quality and consists of various publicly traded fixed-income instruments.

Potential Risks

Under some scenarios it is possible for participants to lose money even in a stable value option. Those situations are unlikely and rarely occur, but they can happen. It's important for investors to be aware of these potential risks. Withdrawals resulting from employer-initiated events, such as withdrawals following mass layoffs, employer bankruptcy or full or partial plan termination are not always covered by Stabilizer's guarantees and may be restricted or subject to market value adjustment. Your stable value account balance is not guaranteed by the Federal Deposit Insurance Corporation (FDIC), by any other government agency or by your plan.

What is the objective?

Stability of principal is the primary objective of this investment option. While the contract is active, StabilizerSM guarantees a minimum rate of interest and may credit a higher interest rate from period to period. The credited interest rate is subject to change, up or down but will never fall below the guaranteed minimum. Once the rate is credited, the interest becomes part of the principal and may increase through compound interest.

How is the rate of interest stated?

Participant balances are credited interest daily. This rate is net of all expenses and will apply to all new contributions and existing account balances for the specified period.

The crediting rate is announced in advance of the upcoming crediting rate period. The crediting rate periods are quarterly, semi-annually or annually.

For information on your current rate, please check your Voya quarterly participant statement.

How does it benefit me?

The stable value investment option is intended to help insulate against the daily fluctuations in market value. Many participants find this stability an attractive feature. An announced rate of interest is another feature of stable value investment options that many participants like.

Are there any limitations on contributions, withdrawals, or transfers from my plan's stable value option?

Voya generally does not limit contributions or withdrawals as a result of retirement, death, disability, unforeseen hardship, separation from service, or attainment of age 65 (consult your own plan for limitations), however sometimes there are restrictions on participant transfers. Participant transfers between the stable value option and funds with similar investment objectives (referred to as competing funds) may be subject to an industry standard 90 day "equity wash" provision.

What are the fees?

Total Annual fees are 0.30% (effective 10/1/2018).

This portfolio is not a registered investment under the 1940 Act and has not been registered with the Securities and Exchange Commission.
