

Voya Index Solution 2045 Portfolio - Initial Class

Category

Target-Date 2045

Investment Objective & Strategy

From the investment's prospectus

The investment seeks to provide total return consistent with an asset allocation targeted at retirement in approximately 2045.

Under normal circumstances, the Portfolio invests at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in a combination of passively managed index funds (collectively, the "underlying funds"). The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other debt instruments, and the Portfolio uses an asset allocation strategy designed for investors expecting to retire around the year 2045.

Funds or their affiliates may pay compensation to Voya® affiliates offering a fund. Such compensation may be paid out of distribution, service and/or 12b-1 fees that are deducted from the fund's assets, and/or may be paid directly by the fund's affiliates. Any fees deducted from fund assets are discussed in the fund's prospectus and disclosed in the fund fact sheet. Because these fees are paid on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. If offered through a retirement program, additional fees and expenses may be charged under that program. NOT A DEPOSIT. NOT FDIC INSURED. NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY. NOT GUARANTEED BY THE INSTITUTION. MAY GO DOWN IN VALUE.

Notes

There is no guarantee that any investment option will achieve its stated objective. Principal value fluctuates and there is no guarantee of value at any time, including the target date. The "target date" is the approximate date when an investor plans to start withdrawing their money. When their target date is reached, they may have more or less than the original amount invested. For each target date Portfolio, until the day prior to its Target Date, the Portfolio will seek to provide total returns consistent with an asset allocation targeted for an investor who is retiring in approximately each Portfolio's designation target year. On the Target Date, the Portfolio will seek to provide a combination of total return and stability of principal. Expense information has been restated to reflect current contractual rates. Total Annual Portfolio Operating Expenses may be higher than the Portfolio's ratio of expenses to average net assets shown in the Portfolio's Financial Highlights, which reflects the operating expenses of the Portfolio and does not include Acquired Fund Fees and Expenses. Voya Investments, LLC (the "Investment Adviser") is contractually obligated to limit expenses to 0.06% for Class I shares, through May 1, 2027 (the "Expense Limitation Agreement"). The limitation does not extend to interest, taxes, other investment-related costs, leverage expenses, extraordinary expenses such as litigation or other expenses not incurred in the ordinary course of business, and expenses of any counsel or other persons or services retained by the Directors who are not "interested persons" as that term is defined by the Investment Company Act of 1940, as amended, and Acquired Fund Fees and Expenses. Modification of the Expense Limitation Agreement requires written agreement signed by each of the parties and approval by the Portfolio's Board of Directors (the "Board"). The Expense Limitation Agreement shall terminate with respect to the Portfolio upon termination of the Portfolio's advisory agreement with the Investment Adviser, or it may be terminated by Voya Partners, Inc. (the "Company"), without payment of any penalty, upon written notice to the Investment Adviser at its principal place of business.
