Objective

Stability of principal is the primary objective of this investment option. The Voya Fixed Account – 457/401 II A guarantees a minimum rate of interest and may credit interest that exceeds the guaranteed minimum rate. Daily credited interest becomes part of principal and the investment increases through compound interest. All amounts invested by your plan in the Voya Fixed Account – 457/401 II A receive the same credited rate. This is known as a portfolio method of interest rate crediting.

Key Features

The Voya Fixed Account – 457/401 II A is intended to be a long-term investment for participants seeking stability of principal. The assets supporting it are invested by VRIAC with this goal in mind. Therefore, VRIAC may impose restrictions on transfers and withdrawals involving the Voya Fixed Account – 457/401 II A if competing investment options are offered, or if you have a choice between multiple service providers. These restrictions help VRIAC

to provide stable credited interest rates which historically have not varied significantly from month to month despite the general market's volatility in new money interest rates. Your local representative can confirm whether or not your plan includes competing investment options and/or multiple service providers.

If the contract is surrendered completely, or if you surrender your account to transfer to another carrier within the plan, a Market Value Adjustment ("MVA") may be applied to the Voya Fixed Account – 457/401 II A portion of your account (or the contract holder may elect to have the surrendered amount paid out over a period of 60 months, with interest paid). This MVA would not apply to any distribution made to you as a benefit payment. Please refer to your contract prospectus, contract prospectus summary or disclosure booklet, as applicable, for more information.

* For contracts issued in Florida, the MVA may be referred to as the Contract Termination Adjustment.

Interest Rate Structure

The Voya Fixed Account – 457/401 II A guarantees principal and a guaranteed minimum interest rate ("GMIR") for the life of the contract. VRIAC may credit interest at a current rate that may be higher than the GMIR, and the current rate may be changed at any time, except that we will not apply a decrease to the current rate following a rate change initiated solely by us prior to the last day of the three-month period measured from the first day of the month in which such change was effective. The current rate for a plan's initial investment in the Voya Fixed Account – 457/401 II A may be in effect for less than a full three-month period.

The GMIR and the current rate are expressed as annual effective yields. Taking the effect of compounding into account, the interest credited to your account daily yields the then current credited rate.

VRIAC's determination of credited interest rates reflects a number of factors, which may include mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized

on the sale of invested assets. Under this option, VRIAC assumes the risk of investment gain or loss by guaranteeing the principal amount you allocate to this option and promising a minimum interest rate during the accumulation period and also throughout the annuity payout period, if applicable.

Any insurance products, annuities and funding agreements that you may have purchased are issued by Voya Retirement Insurance and Annuity Company ("VRIAC"). VRIAC is solely responsible for meeting its obligations. Plan administrative services provided by VRIAC or Voya Institutional Plan Services, LLC ("VIPS"). Neither VRIAC nor VIPS engage in the sale or solicitation of securities. If custodial or trust agreements are part of this arrangement, they may be provided by Voya Institutional Trust Company. All companies are members of the Voya® family of companies. Securities distributed by Voya Financial Partners, LLC (member SIPC) or other broker-dealers with which it has a selling agreement.
