Investment Objective & Strategy

From the investment's prospectus

The investment seeks long-term capital appreciation.

The Portfolio invests primarily in equity securities, principally common stocks, of relatively large non-U.S. companies with market capitalizations in the range of companies included in the MSCI® Europe, Australasia and Far East ("EAFE®") Index. It invests at least 80% of its assets in equity securities. The Investment Manager looks for established companies in economically developed countries and may invest up to 15% of the Portfolio's assets in securities of companies whose principal business activities are located in emerging market countries.

Funds or their affiliates may pay compensation to Voya® affiliates offering a fund. Such compensation may be paid out of distribution, service and/or 12b-1 fees that are deducted from the fund's assets, and/or may be paid directly by the fund's affiliates. Any fees deducted from fund assets are discussed in the fund's prospectus and disclosed in the fund fact sheet. Because these fees are paid on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. If offered through a retirement program, additional fees and expenses may be charged under that program. NOT A DEPOSIT. NOT FDIC INSURED. NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY. NOT GUARANTEED BY THE INSTITUTION. MAY GO DOWN IN VALUE.
