

CCH Aggressive Lifestyle Portfolio

Lifestyle Portfolios are multi-asset type investment options that are intended to be managed in accordance with a plan participant's retirement time horizon, long-term return expectations and overall tolerance for risk of principal loss. Since the asset allocation decision is the most important factor in determining investment returns over time, these types of funds provide three "packaged," diversified investment choices for those seeking assistance in making the asset allocation decision. Lifestyle Portfolios are constructed to provide different long-term investment return and risk characteristics that are determined by their underlying sub-funds. The sub-funds are active and passive U.S. Stock, International Stock and U.S. Bond Funds that are also available as "stand-alone" investment funds.

Investment Objective

The investment objective of the CCH Aggressive Lifestyle Portfolio is to provide long-term growth of capital with income as a minor consideration. Eighty-five percent (85%) of the total fund assets are allocated to equities and fifteen percent (15%) are allocated to fixed income securities. It is the most aggressive of the three Lifestyle Portfolios in terms of its potential for the greatest investment return as well as the greatest risk. It is most suitable for participants who are able to remain invested for ten or more years, or who are comfortable with the higher short-term fluctuations that are characteristic of investing in equity markets.

Strategy

The strategy for the CCH Aggressive Lifestyle Portfolio is to invest in a combination of active and passive investments in the following proportions: ---20% in the Principal MidCap Fund – Institutional Class, which seeks long-term growth of capital. Normally invests at least 80 percent of its net assets in securities with medium market capitalizations. The Fund may invest in foreign securities.

---20% in the American Century Investments® Small Cap Value Fund - R6 Class which seeks long-term capital growth; income is a secondary consideration.

---15% in the PIMCO Total Return Fund – Institutional Class, which seeks maximum total return, consistent with capital preservation and prudent investment management.

---15% in American Century Investments® Ultra® Fund - R6 Class, which seeks long-term capital growth.

---10% in the Vanguard® Institutional Index Fund – Institutional Shares, which seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.

---10% in the American Funds® American Mutual Fund® - Class R-6, which seeks current income, growth of capital and conservation of principal.

---10% in the MFS® International Growth Fund - Class R6 which seeks capital appreciation.

Each sub-fund description contains more detailed information regarding the sub-funds' Investment Advisers, Portfolio Managers, Investment Objectives, Strategies and Principal Risks, and must accompany this Lifestyle Portfolio description.

Principal Risks

All equity (both U.S. and International) and fixed income investments exhibit certain risk characteristics that include the potential for loss of principal value. Generally, the probability of loss of principal is greater with investment funds that also provide the greatest potential for investment return. International stocks carry additional risks that relate to currency and political uncertainty. The risks of Lifestyle Portfolios are based on the proportionate risk characteristics of the underlying sub-funds described above. Each sub-fund description must accompany this Lifestyle Portfolio description.

Investment Objective & Strategy

From the investment's prospectus

The investment seeks long-term capital growth.

The fund normally invests in stocks of companies that the adviser believes will increase in value over time. The portfolio managers make their investment decisions based primarily on their analysis of individual companies, rather than on broad economic forecasts. The portfolio managers use a variety of analytical research tools and techniques to identify the stocks of larger-sized companies that meet their investment criteria. Under normal market conditions, the portfolio managers seek securities of companies whose earnings or revenues are not only growing, but growing at an accelerated pace.

Important Information

Funds or their affiliates may pay compensation to Voya® affiliates offering a fund. Such compensation may be paid out of distribution, service and/or 12b-1 fees that are deducted from the fund's assets, and/or may be paid directly by the fund's affiliates. Any fees deducted from fund assets are discussed in the fund's prospectus and disclosed in the fund fact sheet. Because these fees are paid on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. If offered through a retirement program, additional fees and expenses may be charged under that program. NOT A DEPOSIT. NOT FDIC INSURED. NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY. NOT GUARANTEED BY THE INSTITUTION. MAY GO DOWN IN VALUE.
