Category
Target-Date 2060+

Investment Objective & Strategy

The Funds seek high total return with a shift to current income and some capital appreciation over time as each Fund approaches and passes the target retirement date.

Uses an asset allocation strategy designed for investors expecting to retire around the year 2060, with the allocation changing on an annual basis, becoming more conservative as the Fund nears the target retirement date.

Invests in a combination of equity, fixed income, commodity and short term JPMorgan Chase Bank, N.A Commingled Pension Trust Funds and/or funds maintained by unaffiliated banks and trust companies, which includes vehicles with lower levels of active risk.

Funds or their affiliates may pay compensation to Voya® affiliates offering a fund. Such compensation may be paid out of distribution, service and/or 12b-1 fees that are deducted from the fund's assets, and/or may be paid directly by the fund's affiliates. Any fees deducted from fund assets are discussed in the fund's prospectus and disclosed in the fund fact sheet. Because these fees are paid on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.
