

# Voya Index Solution 2065 Portfolio - Service Class

**Category**  
Target-Date 2065+

## Investment Objective & Strategy

### From the investment's prospectus

The investment seeks to provide total return consistent with an asset allocation targeted at retirement in approximately 2065.

Under normal market conditions, the Portfolio invests at least 80% of its net assets (plus borrowings for investment purposes) in a combination of underlying funds which are passively managed index funds. The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other debt instruments and the Portfolio uses an asset allocation strategy designed for investors expecting to retire around the year 2065.

## Important Information

**Morningstar Investment Profiles must be accompanied by Morningstar Disclosure and Glossary.**

Funds or their affiliates may pay compensation to Voya® affiliates offering a fund. Such compensation may be paid out of distribution, service and/or 12b-1 fees that are deducted from the fund's assets, and/or may be paid directly by the fund's affiliates. Any fees deducted from fund assets are discussed in the fund's prospectus and disclosed in the fund fact sheet. Because these fees are paid on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. If offered through a retirement program, additional fees and expenses may be charged under that program. NOT A DEPOSIT. NOT FDIC INSURED. NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY. NOT GUARANTEED BY THE INSTITUTION. MAY GO DOWN IN VALUE.

## Notes

There is no guarantee that any investment option will achieve its stated objective. Principal value fluctuates and there is no guarantee of value at any time, including the target date. The "target date" is the approximate date when an investor plans to start withdrawing their money. When their target date is reached, they may have more or less than the original amount invested. For each target date Portfolio, until the day prior to its Target Date, the Portfolio will seek to provide total returns consistent with an asset allocation targeted for an investor who is retiring in approximately each Portfolio's designation target year. On the Target Date, the Portfolio will seek to provide a combination of total return and stability of principal. The Portfolio's Management Fee structure is a "bifurcated fee" structure as follows: an annual rate of 0.20% of the Portfolio's average daily net assets invested in Underlying Funds within the Voya family of funds, and 0.40% of the Portfolio's average daily net assets invested in direct investments. The adviser is contractually obligated to limit expenses to 0.64% for Class S shares through May 1, 2023. The limitation does not extend to interest, taxes, investment-related costs, leverage expenses and extraordinary expenses. Termination or modification of this obligation requires approval by the Portfolio's board.
